Soviet Russia Promised In Message To M. Stalin

ACCORDING TO A COMPETENT MILITARY COMMENTATOR IN LONDON, IT WOULD APPEAR THAT THE SMOLENSK SECTOR IS THE ONE IN WHICH THE GERMANS ARE STILL EXERTING THE GREATEST PRESSURE. HE POINTED OUT. HOWEVER, THAT THIS BATTLE HAS ALREADY BEEN GOING ON FOR OVER A FORTNIGHT ON A TREMENDOUS SCALE AND WITH THE UTMOST FIERCENESS. AND THAT SUCH A BATTLE CANNOT CONTINUE INDEFINITELY; says British Wireless.

On the other hand, it does not seem possible that a battle on such a vast scale, where such confusion of the disposition of troops exists-large forces of opposing troops fighting behind each other's advanced forces—can resolve itself into a static front.

THE RESULT OF THE BATTLE WOULD APPEAR TO DEPEND ON WHETHER THE GERMANS CAN DEPLOY A SUFFICIENT NUMBER OF TROOPS AND ARMOUR-ED FORCES TO SUBDUE THE RUSSIAN RESISTANCE, OR WHETHER THE RUSSIANS CAN HANG ON AND EXHAUST THE GERMAN ARMIES.

It is believed the next few days may show which of these two alternatives will prove successful. In spite of many reports of large German concentrations on the Bulgarian-Turkish frontier, no authoritative information has reached London of any impending action by the Germans on this front.

TOKYO, July 31 (Reuter)—The Acting Vice-Minister for Foreign Affairs, Mr. Yamamoto, called on Mr. Joseph E. Grew, United States Ambassador to Japan, this morning to express regrets over the bombing of the United States gunboat Tutuila during yesterday's raid on Chungking.

When Mr. Grew conferred with Admiral Toyota, the Foreign Minister, this afternoon, the latter expressed deep regret at the bombing of the gunboat. Mr. Grew protested against the Japanese censorship of the bomb.

AMERICAN PUBLIC AROUSED WASHINGTON, July 31 (Central)-Reports of the damage of the U.S.S. Tutulla and the United States Embassy surroundings in Chungking by Japanese aerial bombs were splashed on the front pages of the newspapers.

SHIPPING IN HARBOURS OF PETSAMO AND KIRKENES ATTACKED: FAST WARSHIP

LONDON, July 31 (Reuter)—Naval aircraft yesterday delivered attacks on German shipping in the harbours of PETSAMO and KIRKENES in Northern Scandinavia. At Petsamo, a little shipping was found in the port and the attack was concen-

trated on the harbour works. At Kirkenes the fast German warship BRENST (1,460 tons), which was a gun-

nery training ship before the war, was twice hit. Four enemy ships were also hit. Four enemy aircraft were shot down during these operations. Sixteen naval aircraft were lost.

In daylight yesterday, a considerable force of Blenheim bombers searched German territorial waters for shipping. A number of small vessels in a convoy were sighted and were attacked in HELI-GOLAND BIGHT.

Two ships were sunk and another two received direct hits. Seven of our aircraft are missing from these daylight operations. Last night British aircraft, flying through severe thunderstorms, flew over Western Germany

and attacked industrial targets in AACHEN and COLOGNE. The docks at BOULOGNE were also bombed. Three of our aircraft re missing from these night operations.

A Bowl Of Rice For China: ANNUAL MEETING Campaign Commences Today

BY JAMES BERTRAM

TODAY, HONGKONG HAS ITS FIRST EXPERIENCE OF THE "ONE BOWL OF RICE" MOVEMENT TO RAISE FUNDS FOR CHINA RELIEF. It may seem strange that this has not happened in the Colony before, for the idea of limitation of a single meal, so that the balance may go to some patriotic or charitable cause, is certainly not new. It was widely practised, for example, in fascist countries in Europe, where of course it was dictated from above and made compulsory on the whole community. General Goering-an-apt promoter of reduced diet as an end in itself-used to insist that submissive citizens of the presided over a large attendance Third Reich should go without their ersatz sausage in of representatives of the various order that there might be more Messerschmitts, and so forth. The results, if not enthusiastic, were certainly impressive.

"Meatless meals," "one-course dinners," and other variations on the same theme of self-denial through the stomach, have since been widely popularised in many countries. But there is a clear difference in principle between the sort of thing that is clamped down from above by a totalitarian regime, and the spontaneous and voluntary movement of a body of citizens to contribute to a cause they believe in.

As Mrs. Selwyn-Clarke. Vice-Chairman of the Campaign Committee, has written: 'To buy a ticket for our Bowl of Rice Campaign is not just charity. It means giving work and a livelihood to China's refugees-helping them, through Co-operation, to help themselves." No better object for support could be found at this time in any part of Free China.

Then these parachutists, even if they escape this attack, have to move along unknown roads. They may meet road blocks and then they come to villages. And in the meantime, they must get ammunition and how are they going to replace this ammunition as they will constantly be meeting the Home Guard.

MANY DIFFICULTIES Sir Frederick agreed that any invasion of Britain from the air would be faced with many difficulties.

Gen. Rowan-Robinson added that apart from this it had to be remembered that the Home Guard would be fighting in defence of their own homes and country and

JAPAN BAITING THAILAND TO JOIN NEW ORDER WITH OFFER OF CAMBODIA, LAOS

BANGKOK, July 31 (Reuter) - White authoritative circles deny that Japan has offered Cambodia and Laos as quid pro quo if Thailand will join the "New Order," well-informed observers believe that it is only a question of time before Japan sounds Thailand on proposals of some sort.

They think that it is quite probable that Japan will shortly offer the world-famous Angkhorwat and Laos in Indo-China in the belief that Thailand will be very glad to have the former for sentimental reasons and the latter on internal political grounds.

Rise In Motor Car Prices: Expected

What the automobile price structure is to be is the question now puzzling leaders of the industry. The request by Leon Henderson, Federal price control administrator, that increases of from \$10 to \$53 announced by a number of manufacturers on 1941 models be immediately withdrawn has served to make more difficult a problem which already was worrying the industry. It has immediate and future bearing, writes Bernard J. Wemboff to the New York "Times." That price raises are justified, in view of rising costs and curtailed output, is not denied, but there is the government's price control setup to be reckoned with.
